

Aura Safira Consulting Internship Program

Aura Safira Consulting Limited (ASC), established in Nairobi, Kenya, in 2016, is a digital transformation firm that drives development by integrating technology, research, capacity building, and policy. ASC's mission is to partner with governments, organizations, and communities to achieve sustainable positive impact through innovative strategies and technology. Guided by core values like Integrity, Collaboration, Excellence, Innovation, and Communication, their vision is to lead in sustainable living via health, knowledge, and smart technology. ASC's multi-disciplinary team specializes in areas like Software Engineering (delivering person-centered digital solutions), Systems Interoperability and integration (including IoT), Informatics, Telemetry, and Data Science (leveraging AI branches like Machine Learning), Project Management and Implementation Science to increase the uptake of evidence-based interventions and inform policy formulation.

Aura Safira Consulting (ASC) offers internship opportunities for students specializing in IT, Software Engineering, and Computer Science. The program aims to provide a framework for students from diverse academic backgrounds to gain exposure to ASC's operations, enhance their educational experience, and acquire practical experience in the technology sector. In return, ASC benefits from the assistance of qualified students with expertise in various technical fields.

Eligibility Criteria

Applications must meet the following minimum eligibility criteria to be considered for an internship at ASC:

- Be enrolled in a university (university degree or a tertiary college for diploma).
- Be in the final academic year of a first university degree or diploma program (Bachelor's level or equivalent).
- Have an insurance letter from the university and diploma.
- Have graduated with a university degree and be able to commence the internship within one year of graduation.

Internship Details

The internship program with ASC is for a minimum period of two months and a maximum of six months. The selected interns will contribute to ASC's work in digital transformation, which combines technology, research, capacity building, and policy to drive development. Interns will have the opportunity to work with a multi-disciplinary team on projects related to software engineering, systems interoperability, data science, and project management.

Application Process

To apply for an internship, interested candidates should send their applications directly to Aura Safira Consulting at info@aurasafira.co.ke with a clear title: **Application for IT, Software Engineering, and Computer Science Intern**. Applications must include proof of enrollment, stating that you are currently a student and your expected date of graduation. If you have already graduated, a certified copy of your degree is required. The proof of enrollment must be on an official letter head or bear an official seal.
